# INFORMATION

## How do I confirm a booking?

Check for availability with us, once you have confirmation you will be sent a link to complete your booking online. If you need assistance with your booking, we are here to help.

## What is the cost of an additional hour?

Our overtime rate is R2,000 per hour. This does not apply to the full day packages.

## What does the Full Day package cover?

The Full Day package covers your wedding day from the start until the end of formalities or 10pm. We are at the venue early to capture important detail, and we capture everything in between.

## Which is better 4K or HD?

This usually depends on what devices you have to playback the video. Most modern TVs are HD compatible while newer TVs can display 4K. If you would like to a comparison between the two, simply play our wedding videos on our website and select either 4K or HD to see which you prefer.

## What wedding films are included in my package?

You will receive 3 wedding films, The first film will include the first half of the day, venue, prep, ceremony, and photo shoot. The second film will include the reception, formalities, first dance and party. The third film will be your feature film which is usually 3 to 6 minutes long depending on your video package.

## I have booked 4K, can I also get an HD version?

Yes, this comes standard on all 4K packages, you receive both 4K and HD versions.

## Do you travel out of Gauteng?

Yes we do, let us know which area your wedding is taking place and we will put together a quote for you.

## How long does it take to edit our wedding video?

Editing usually takes 12 to 16 weeks to complete. We try not to sacrifice quality with speed.

## Is drone coverage included with all packages?

Yes. Although, this is subject to weather conditions like wind, rain, snow, hail and low visibility. Also some areas are no fly zones, like areas close to airports. We require permission from your venue before we can fly the drone. Drone coverage will capture your venue from above before the wedding starts.

## Do you shoot your own weddings, or do you contract other suppliers?

We shoot and edit our own weddings. That way, we know that we are giving the best service, always.

## Do you offer wedding photography?

Yes we do. We offer combo wedding photo and video packages as well.

## When is the best time for me to book my wedding videographer?

Usually once you book your venue. Try to book your videographer soon so that you get the videographer that you want. Videographers, like all wedding suppliers work on a first come first serve basis and the good ones are usually booked up first.

## Do you meet with your clients beforehand.

We usually prefer to meet with our clients first to see if we can be a good fit. Also closer to the wedding day we will get together to finalise the wedding program.

## What happens if it rains on my wedding day?

A little rain never hurt anyone. Although, they do say that when the heavens open, it's extra blessings. We can use the venues indoor arrangement, or we could shuffle the program so that photos and video can take place at a later time. We can also arrange a styled wedding shoot after the wedding day if you would like.
